

# User-Configurable Driver + OPC / DDE server

## Enhance the Reliability and Scalability of your applications

The User-Configurable driver by Kepware enables you to quickly and easily develop communications drivers for nearly any serial or Ethernet device. The U-CON's Transaction Editor uses a menu driven interface, which allows the configuration of read & write transactions (data packets) to establish runtime communications with the device. These transactions are uploaded as Tags in our reliable and field proven OPC/DDE server. Contact Kepware for assistance with using U-CON for your non-PLC device connections. **Download our free demo software: [www.kepware.com](http://www.kepware.com)**

### Typical Devices:

- Analyzers
- Barcode Scanners
- Controllers
- Counters
- Displays
- Drives
- Gauges
- Instruments
- Legacy Systems
- Meters
- Monitors
- Motors
- Printers
- Pumps
- RFID Devices
- Sensors
- Totalizers
- Weigh Scales

### Full Access:

- Kepware OPC servers are proven with HMI, SCADA, Historian, and custom applications like Visual Basic, Visual Basic .NET, Excel, etc.
- Software includes Simulator driver and free multi-use 2-hour demo
- License purchases include: 2 hours of phone & unlimited email support

### Application Connectivity:

- OPC Data Access: 1.0a, 2.0, 2.05a, 3.0
- DDE Formats: CF\_Text, AdvancedDDE
- Other Formats: FastDDE & Suitelink for Wonderware, PDB Interface for iFIX

### Which U-CON license do you need?

The OPC/DDE server features are identical between U-CON Protocol Server and KEPServerEX, but U-CON is used in applications where only configurable connectivity is needed. KEPServerEX on the other hand is a single OPC server interface with multiple "plug-in" drivers for common industrial connectivity to Allen Bradley, GE, Mitsubishi, Modicon / Modbus, Siemens, Yokogawa and more. So choose the U-CON plug-in for KEPServerEX when you also need other types of connectivity supported through a single OPC server interface.

Product Description	Product ID #	List Price <sup>†</sup>
U-CON Protocol Server	OPC-UCNPS-NADL	\$795
----- or choose U-CON as a plug-in to KEPServerEX -----		
U-CON driver for KEPServerEX	OPC-UCOND-NA00	\$795
